uses Symbolic Directions

In symbolic directions (as measured by the solar arc), we see the Moon's Nodes' axis squaring the Sun in May 1976.

Saturn's last station before the event occurred on March 27, at 26° Cancer i.e., opposed to natal Saturn (ruler of the 4th and posited in the 4th), and square Venus (almuten of the 4th and the 8th). This station was activated by a square from transiting Venus one week after the event.

On April 29, a solar eclipse occurred at 9° Taurus, in exact opposition to Neptune, and loosely in square with Mars (second almuten of the 4th). On May 13, a lunar eclipse occurred at 23° Scorpio, squaring Uranus, opposed to the Lot of the Father, and in trine with the Lot of Death. These eclipses were not activated by transits near the event, but by the axes of the prevailing Lunar Revolution (adjusted for the precession of the equinox): the FC was exactly conjunct to natal Neptune i.e., on the said solar eclipse; and the AC was closely conjunct to natal Uranus, and in exact square with the lunar eclipse. This month was thus a very moving and probably disturbing period for the native.

Method : KCIL

Dasa runnig in date of incident was Jupiter-Moon-Jupiter-Jupiter-Venus. All these Planets are not only source in 4,9,3,,10 and 5 but also signifiers of these Houses in the Chart.

TRANSIT: Sun Transits over Sun sign Sun Star. SUN is signifier of 4,9,3,10,,5. Moon transits in its own star. Moon not only signifier of 4,9,3 10,5 but also Virtual SSL of 5th House (badka). Saturn transits again in Moon sign Mercury Star. Mercury is also operates death inflicting Houses of her father. Thus transit and dasa support the event.

VIRTUAL TRANSIT: Mercury is SSL of Progressed chart and Mercury's role is discussed above. Moon's Progressed position also operates 4,9,3,10. This confirms the event

uses western astrology with tertiary progressions

With the tertiary progressions, the event is represented by the following chart : December, 26th 1961, 14h00 UT, the birth place. This chart works for one lunar month, from September, 8th to October, 5th 1976.

The Sun is conjunct exalted Mars in the 8th House respectively 4° and 1° Capricorn. The Lord of the Hour is Venus, at 26° Sagittarius. Venus rules the Ascendant as well.

In the natal chart, Venus is at 29° Aries, in a close conjunction to the Part of Accidents and Diseases at 0°25 Taurus, whose formula is : Ascendant + Mars – Saturn and reversed for a nocturnal chart.

A new Test will be posted to the website round and about **April 1st**.
Until then!
