The running period for the event is : Mercury - Moon.

Mercury is in a nakshatra of Saturn, which rules the 8th House (surgery) and significator of illnesses. The Sun is in a sign of Saturn.

The Moon is in a nakshatra of the Sun, which governs the 2nd House (the right eye) and significator of the sight and the right eye in particular. The Sun is in the nakshatra Shatashbisha, which name means “one hundred physicians”. This asterism is linked to the sickness for the planet placed within.

All four angles are badly afflicted by transiting malefics, which indicates health problems to the physical body. Transiting Saturn is conjunct the Ascendant (within 2 degrees). Transiting Neptune is conjunct the Descendant, transiting Mars is placed in the 10th House, and transiting Sun is placed in the 4th House.

The native was running Mercury-Rahu-Mars dasa.

In the shastiamsa (D60 chart), Mercury is conjunct the 8th bhava cusp, suggesting an operation, and Rahu is placed in the 6th House (whose lord is the Moon), further emphasizing health problems. An afflicted planet in the 6th House gives trouble to the limb represented by the afflicted Planet: The Moon represents the face or eyes. Malefic planets in the 6th and the 8th bhava have the power to take away vision; the planet in the 6th destroying the left eye and the Planet in the 8th bhava destroying the right eye. This woman has eight natal yogas (a large number) for eye disorders.

Great! Well done everybody. A new Test will be posted to the website round and about
December 1st.
