The answer to the Test is option 1: his mother died

In the Chart you see:

- Mother, Ruler of the 10th House Jupiter opposite Neptune (loss)
- Jupiter exact trine Venus, Ruler of the 8th : death of mother
- Moon, natural significator of the mother in a night-time chart, in the 12th House of loss
- Saturn conjunct the 8th House cusp inconjunct the Ascendant: he was confronted with death
- Uranus, Ruler of the 12th sextiel Mercury, Ruler of the 4th House of family: loss within the family
- With a larger orb Eq. Asc. conjunct the 12th House and conjunct the Moon, mother. The Moon is the Ruler of the 8th from the 10th

It obviously was a very difficult Test, because only one Astrologer found the right answer. Most astrologers choose option 4: diagnosed with lung cancer.

But looking at the Biwheel (AH Chart on the inside) you see the attention is drawn to the natal Moon conjunct the 5th House cusp (which is the 8th from the 10th) conjunct the Sun, Ruler of the 8th natal House of death, pointing in the direction of his mothers death.s

Christy (USA)

uses Vedic Astrology (Solar Return and Transits)

In the Solar Return, Rahu is conjunct the Vertex at zero degrees and both are conjunct the Solar Return 6th House cusp. Rahu gives the effects of its lord Mars, who is the Matrukaraka (the Jaimini indicator of the mother). Saturn is also conjunct Rahu and the Vertex.

The man was running Ketu-Venus-Mars dasa.

The Antardasa lord Venus is the man's natal 4th House bhava cusp lord. Solar Return Ketu, Solar Return Mars, and the Solar Return 12th House cusp are all conjunct the natal 4th house cusp, indicating losses connected to the 4th House. Also by transit, Ketu is conjunct the 4th House cusp at zero degrees, further suggesting the mother's death.

Well done Christy and thank you all for your wonderful contributions. I hope you aren't discouraged by the result. It is all about learning, not about making mistakes. Mistakes are merely the tools to improve ourselves.

A new Test will be posted to the website round and about December 1st. Until then!! Keep safe and healthy.
