Astrology

The correct answer is option 3: he fell from a ladder and broke his hip.

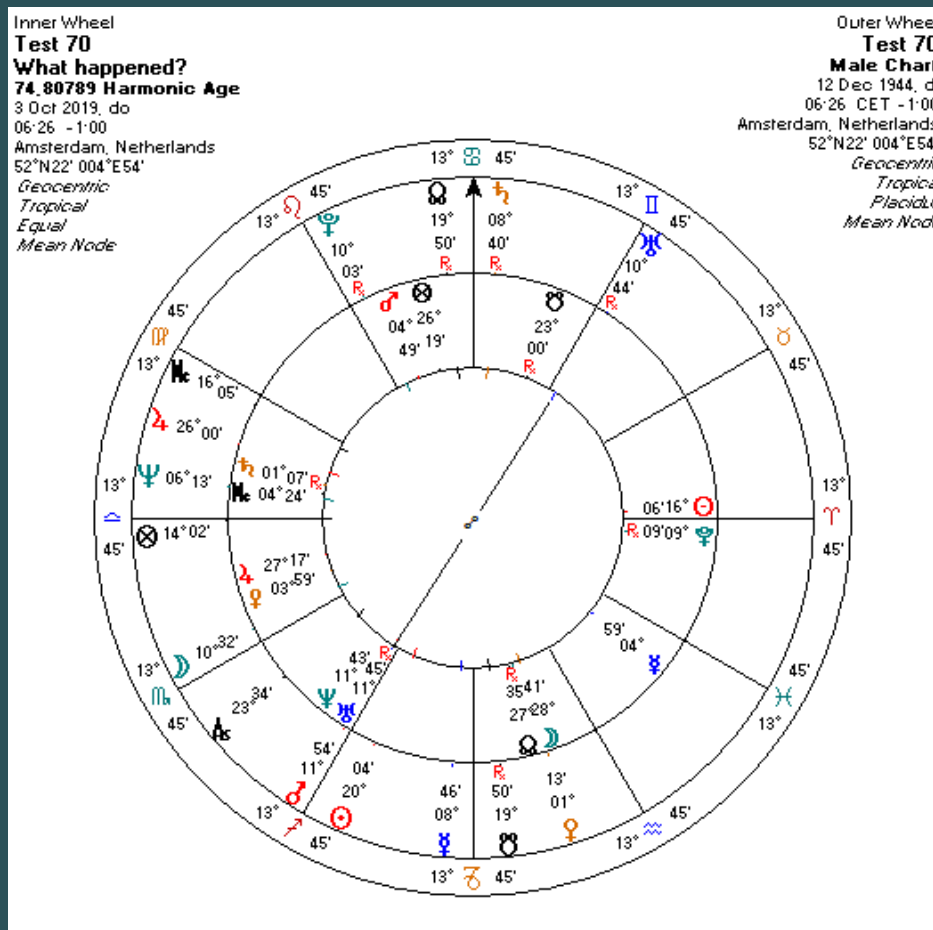

When you look at the closest aspects in the Age Harmonic of that day, you see:

- Venus (in Fall), Ruler of the 1st AH House square Mars, the accident
- A Yod: the Floating Mc conjunct Saturn, sextile Mars, and both inconjunct Mercury, Ruler of the 9th House, which rules the hip.
- Uranus/Neptune conjunct the cusp of the 3rd House, sextile the Ascendant: again pointing in the direction of the accident.

9 astrologers participated in the Test. Chiarastella Ghesani (Italy) was the only one who found the correct answer. Most astrologers choose option two: his sister died.

That most astrologers choose for option 2 is very understandable. If you look at the biwheel (AH on the inside) for confirmation, you see the 3rd House activated, but not the Ruler of the 3rd what

would point in the direction of the sister. You also see:

- Natal Mars on the 3rd AH House conjunct Uranus AH is symbolizing the accident
- Natal Uranus conjunct the 9th House cusp shows the injury of the hip
- together with natal Mercury (Ruler of the 9th AH House, which rules the hip), square Pluto in the 6th

Chiarastella Ghersani (Italy)

uses the AH Technique

- Moon in Capricorn 4th House opposite Mars in Leo 10th House and square Jupiter in Libra and Venus in Scorpio in the 1st House
- Mercury in Pisces 5th House is square Uranus and Neptune in Sagittarius (hip) in 2nd House (physical body)

This was a difficult Test Well done Chiarastella! But my compliments to you all you all did good, trying to find out the correct answer.

A new Test will be posted to the website round and about **December 1st**
