Matthieu Kaiser (France)
using S.A. directions and the Lunar Return

In the directions by solar arc near the event, we have the Ascendant in square with the Moon's nodes' axis.

Jupiter stationed direct on May 5th , while being in partile square with Venus, the Ruler of 1st (health). This station was triggered by a T-square of Mercury with Jupiter and Uranus, around the day of the event.

In the Lunar revolution, the ASC was conjunct with the Lot of Infirmities. Mercury, Ruler of 1st House, was in the 8th House and in sextile with Saturn, almuten of this Lot.

In the Lunar revolution adjusted for the precession of equinoxes, the MC was conjunct with Mars, which signifies surgery. The DSC was conjunct with the natal Mars (which happens to be in the natal 6th House of illness).

In the quotidian chart, Mercury, ruler of 1, and Venus, almuten of 6 and 12, were conjunct with the ASC. Saturn, almuten of the 6th and 8th House of surgery, was in antisca with Venus and the ASC.

Method KCIL using SSL

Rectified birth time as per this method comes to 07 37 40

Dasa running on the date of operation was Sat Ve Ve Ma Ra.

All these planets are not only appear as coruling planets in 8th House 6th House and Ascendant but also involve Ascendant 8th House and commit to 2/3 (preferably right shoulder). 2nd House virtual SSL is also Venus who is not only Bhukti lord/ANTARA lord but also significator of 1,8,12 and commits to 2/3. Thus was ready to give its results as per its involvement and commitment. Moreover, Ascendant co-ruling Planets are also Ve Mar Mo and Sun involve and commit 1;8 and 2 suggesting that native is prone to shoulder problem for longer time

Transit on the date of operation Moon was Transiting in Jup Sign and Sat Star (Dasa Lord). Sun was transiting in Venus sign ((Bhukti and Antara Lord) Mars star (6th House Lord and significator of 1-8-12 with commitment to 2nd House. Similarly Slow moving Planets were also transiting Venus Star and Venus Sign Respectively Thus real transit of planets encourage enactment of event i.e. shoulder operation.

Virtual Transit - Progressed Ascendant position and moon's Progressed position in the Progressed chart confirm the event.

WELL DONE EVRYBODY!

A new test will be published to the website round and about **November 1st**.
