The answer to the test is option 2: she fell in the street and badly damaged her knee

Determine the Dominant Feature by looking first for Significators on an Angle, conjunct the Floating MC or the Vertex.

Immediately we see Mars on the 7th Cusp trine Uranus which shouts accident.

So the Answer is the only event that corresponds in the list of choices -- the street accident.

5 Astrologers participated in the Test. All found the correct answer. Well done everybody! Below follow their answers in order of receipt.

using transits to the birth chart

Transit Ketu conjunct 1st Lord Pluto (at one degree)

Transit Uranus conjunct 1st Lord Mars (at two degrees).

S.L. Narasimhan (India)

Method KCIL using SSL

Dasa running at the time of event Venus-Venus-Jupiter-Rahu-Rahu.

All these Planets appearing as source in 1/8/10/12. They also operate 1-6-8-10 and 12 at stellar level suggest that the period is ready to give problem in knee (10th House). Real Transit and virtual transit agree with the event.

Uses the AH-Technique

I believe she damaged her knee badly:

- Asc. Leo, ruler the Sun in 12, disease and hospital
- Ruler 3rd House is Venus in exil Aries

- Uranus trine Mars is an indication for an accident, Saturn is in the halfsum of Uranus and Pars Fortune
- Ruler 6th House, Saturn, in 6

Susanne Tietgens (Germany)

uses the AH Technique

- Mars on the axis (injury)
- Dispositor of Mars, Saturn, in the 6th house (knee injury) in opposition to the Sun
- Saturn sesquisquare Uranus (fall)
- Moon in Pisces: = injurie, self-inflicted

Uses the AH Technique

Sun opposite Saturn (12 and 6 House)

Saturn in Aquarius ruled by Uranus square Jupiter in Pisces 8th House
