The answer is option 1: he had a heart attack.

In the Age Harmonic Chart of that day you see:

Age Harmonic Chart for 17 Jan 2000, 2:19 am:

Mars on the Ascendant closely quincunx the Sun (heart) on the 8th House Cusp (surgery, etc) and ruling the 5th House (heart), Fortuna on the 5th Cusp (Leo heart).

Well, I think I made it too easy for you all 😊. There weren't many participants this time, four of six tenants found the correct answer. Congratulations to you all!!

Below follow the answers in order of receipt.

Irmgard Dering (USA)

using Porphyry House system for the natal chart and the AH Technique

6th House has Aries on cusp, and its Lord in the AH chart conjunct his Asc his physical body

In the BiWheel 6th House has Virgo on cusp with natal Jupiter conjunct AH Neptune, Lord of 12th in the BiWheel. Both Jupiter and Neptune are in detriment in Virgo and being in 6th House (health) he most likely gets often misdiagnosed.

Also having in the BiWheel Leo on cusp of 5th House (heart) with N Pluto makes me think he had a heart attack! His natal has Pisces (hospital) on cusp of the 5th House and the BiWheel is 12th House Pisces on cusp and Venus is Lord of his natal Asc and 12th House.
