1. ***The answer to Test 88 is optio 2:*** *she underwent an outpatient procedure on her uterus that day.*

In this charts you see:

- the closest aspect in the AH of the event is Sun, Ruler of the 1st square the Moon, the significator of the uterus. Note that the Moon is in het natal 6th House, which can suggest problems with the uterus
- the sextile aspect between the Moon and Mars symbolizes the medical intervention that took place (which included the removal of a few small polyps). Everything went perfect, as symbolized by the Moon in conjunction with the Part of Fortune trine the Sun.

- The running period for the event is the period of the Moon and a sub period of Saturn. Both planets are in fall which means a weakness of the body at that time and health issues as a consequence.
- The Moon is in the House VI of illnesses and in Scorpio. According to the Kala Purusha, Scorpio rules the genitals. The Moon in fall indicates issues on this body part.
- Saturn rules the Houses VIII of surgery and means illness as karaka. Saturn is also in a nakshatra of Venus, Bharani, whose symbol is a vulva. Therefore this woman underwent surgery on her uterus.
